**Subject:** FW: PH Surface Sediment Schedule 6/13 through 7/1  
**Date:** Wednesday, June 20, 2018 4:52:18 PM

---

Davis - Its sounds like the DOD limitations are not an issue for the next week. However, after next week their may be an issue related to citizen requirements (bullet 2 of Ken's email on EPA) extending to EPA and its contractors. We would need to know what our oversight staff are required to provide or the process to get clearance to travel on the boat in that area. I drafted some text that could be used to request clarification from Ken.

Ken,

We understand that there are no requirements for DOD clearance next week. Please provide advance notice of when these locations will be sampled and what the "citizen requirement" entails and if there are any documentation or correspondence needed for our oversight staff to observe during sampling of SG-S179, SG-S183, SG-S191, SB-191 and B-255.

Thank you

Davis

Howard,

Below is the current schedule through July 1, 2018. No changes to start time.

The Federal commando vessel is not docked in the Shipyard Commerce (Vigor) Federally Restricted Area for the next week approximately so there are no DOD limitations/restrictions currently at Vigor.

Wednesday	6/20/18	Surface Sediment - 1 vessel
Thursday	6/21/18	Surface Sediment - 1 vessel
Friday	6/22/18	Fish Acoustic - 1 vessel / Surface Sediment - 1 vessel
Saturday	6/23/18	
Sunday	6/24/18	Surface Sediment - 2 vessels
Monday	6/25/18	Surface Sediment - 2 vessels
Tuesday	6/26/18	Surface Sediment - 2 vessels
Wednesday	6/27/18	Surface Sediment - 2 vessels
Thursday	6/28/18	Surface Sediment - 2 vessels
Friday	6/29/18	Surface Sediment - 2 vessels
Saturday	6/30/18	Surface Sediment - 2 vessels
Sunday	7/1/18	Surface Sediment - 2 vessels

**Subject:** RE: PH Surface Sediment Schedule 6/13 through 7/1

Davis,

Two points:

- We will be operating on two boats on Friday 6/22. One for the fish acoustics and a second for the sediment sampling.
- We have been notified of a [citizenship requirement](#) when we sample at certain locations around the Shipyard Commerce facility, it is reasonable to assume the requirements will extend to the EPA and its contractors. We could be sampling in the area as early as Thursday although the five locations listed below might occur later due to the additional approvals required by the DOD.

We will endeavor to keep you apprised of the schedule and requirements.

3. Access to certain restricted areas designated in Exhibit C here, including five sampling locations : SG-S179, SG-S183, SG-S191, SB-191 and B-255 (alternative 1), is restricted and will require further approval by the

U.S. Department of Defense, and Shipyard Commerce agrees to promptly seek such approval within two weeks of Shipyard Commerce Center's receipt of Pre-RD AOC Group's written request for access. *Pre-RD AOC Group acknowledges that any approval may include restrictions on the citizenship of the individuals seeking access. (emphasis added)*

**Subject:** RE: PH Surface Sediment Schedule 6/13 through 7/1

Hi Nicky,

Can you clarify on the schedule below whether Fish Acoustic / Surface Sediment - 1 vessel will be one vessel for sediment and one vessel for the Fish Acoustic work. EPA would like to provide oversight of the fish acoustic work so please let me know the logistics meeting place and time.

When will the updated schedule for field activities be available?

Thank you,

Howard S. Young, LG | CDM Smith

**Subject:** PH Surface Sediment Schedule 6/13 through 7/1

Howard,

Below is the revised estimated field schedule going through to the end of the surface sediment task. There are no changes to the schedule since my last email update until we get to 6/19, which is no longer a rest day. Also no changes in the start time.

We have approximately 130 locations remaining, and this schedule assumes a production rate of 5 samples a day per vessel. If production rates are higher then we will hopefully eliminate the weekend work on 6/30 and 7/1. I can provide an update again Wednesday next week by COB.

The AECOM site safety officer through 6/22 is Michaela McCoog (cell: (b) (6) ).

Thanks

Nicky

Wednesday	6/13/18	2.1 / 2.2	Bathymetry / Surface Sediment - 1 vessel

Howard,

Surface sediment sampling will resume on Wednesday 6/13/2018 with only one vessel. 6/19/2018 is our next rest day. Same start time at SIL boat ramp – 8 am. We will resume with two vessels as soon as the downtown/upriver reach locations are approved.

Thank you

Nicky

Wednesday	6/13/18	2.2	Surface Sediment - 1 vessel	Port of Portland private property
Thursday	6/14/18	2.2	Surface Sediment - 1 vessel	Port of Portland private property
Friday	6/15/18	2.2	Surface Sediment - 1 vessel	Port of Portland private property
Saturday	6/16/18	2.2	Surface Sediment - 1 vessel	Port of Portland private property / Gunderson (3 locations after barge departs)
Sunday	6/17/18	2.2	Surface Sediment - 1 vessel	Army Corps (license application close) and re-visit locations
Monday	6/18/18	2.2	Surface Sediment - 1 vessel	Re-visit locations / Other private property locations (access agreements pending)
Tuesday	6/19/18		Rest Day
